

WiTT – April 2023 Speaker Bios

Elise Cambournac

Elise Cambournac comes to the Greater Nashville Technology Council from HCA Healthcare where she served as assistant vice president of information technology since 2013. Prior to that, she worked internationally for JABE Consulting and Cognizant Technology Solutions and served as president and CEO for ITTI Private Limited, a technology professional services firm located in Bangalore, India. She began her career as a senior software engineer and director of enterprise solutions for WebMD/Emdeon, which is now Change Healthcare. Cambournac has a master's degree in electrical engineering from SUPELEC (Ecole Supérieure d'Electricité) in Paris, France and is fluent in English and French. She currently serves on the board of the Interfaith Dental Clinic in Nashville and previously served on the board of Women in Technology of Tennessee (WiTT) in Nashville. Cambournac is also an advisor to the Nashville Entrepreneur Center, and she has served as a guest lecturer at Vanderbilt University and Lipscomb University.

Jess Evans

Jess Evans, Ph.D., is an Associate Vice Chancellor and the Chief Information Officer (CIO) at Vanderbilt University. She moved to Nashville in November 2022, from Arizona, where she served as the IT Chief Operating Officer and Deputy CIO leading all enterprise IT operations and all digital transformation efforts at Arizona State University. Dr. Evans holds a Bachelor of Business Administration in Computer Information Systems from Kent State University and a Ph.D. in Management, Designing Sustainable Systems from Case Western Reserve University, where she earned the highest academic award, Beta Gamma Sigma Honors, and the Student Leadership award as a doctoral student at CWRU. As a published researcher and scholar, Dr. Evans has received multiple awards and recognitions for her work in IT, including Top 100 Women in Technology by Global Technology Magazine (2021) and Most Influential Women in Tech by World Leaders Magazine (2022). Dr. Evans' research specializes in design thinking, quantitative methods, structural equation modeling, knowledge structures, credible leadership, and leadership effectiveness. She is a frequent speaker on technology innovation & technology leadership and is an active member of the IT community serving on multiple boards.

Allie Feiner

Allie Feiner is the VP for Global Technology & Operations, Head of GTO Professional and Organizational Development at AllianceBernstein. She joined the firm in May of 2019, where she manages emerging talent pipelines for GTO, oversees all aspects of organizational strategy including organization design, talent mapping, career planning and progression, and talent lifecycles. She partners with members of the executive team on the firm's strategic priorities and projects. In addition, Allie leads the firm's annual internship and associate programs for the Tech and Ops team focused on attracting, hiring and retaining future technology talent. Each year, she oversees the management and onboarding of approximately 50 interns and associates. This includes coordinating programming for AB's technology interns, paving a way for future careers at AB and setting them up for success across the globe.

WITT – April 2023 Speaker Bios

Allie is an active member of the NTC and serves as a scholarship committee member for Women in Technology of Tennessee (WITT) where she acts as a liaison for the firm. She also volunteers at Big Fluffy Dog Rescue, checking applications and assisting with the placement of dogs in foster and forever homes across the country.

Lindsey Morgan

Lindsey Morgan serves as Managing Director of Technology Consulting Services at Vaco, where she has been since 2016. She partners with clients to execute strategic IT projects and initiatives ranging from building call centers, managing offshore development teams, and leading large scale migration efforts. Through her continuous involvement in the technology community, she was asked to join the Nashville Technology Council (NTC) as one of the first ambassadors, and now sits on the NTC Board. Lindsey has been recognized as Nashville's 30 under 30, Nashville Technology Council's Ambassador of the Year, and Nashville's 40 under 40. Outside of work, Lindsey spends her time traveling the world, scuba diving, and spoiling her dog, Piper.
