WiTT March 2023 Speaker Bios

Monisha Longacre

Monisha is an experienced digital media executive with over 30 years of consumer product and marketing experience working for top-notch companies including The Weather Channel, McKesson, EY and Lotus. She is a dedicated professional committed to best practices on the Internet and incorporating customer feedback and innovative ideas to continuously improve consumer experiences online.

Her communications education coupled with technology experience serves as a strong foundation to excel in innovation in the digital media space. She is a seasoned entrepreneur who founded and operated two Ed Tech start-ups and currently serves as the Chief Operating Officer at TONE Networks which is an enterprise SaaS platform designed to help companies grow, connect and retain early to mid-level female employees at scale.

Monisha graduated from the University of Virginia with a bachelor's degree in Rhetoric and Communications Studies and earned a master's degree in Corporate Public Relations from Boston University. She lives in Atlanta, Georgia with her husband and two adult children who come and go. She enjoys reading, traveling and experiencing new things.

Anna Pannier

Anna Pannier, is the Vice President of Information Technology with Centauri Health Solutions where she oversees integration, engineering, service excellence, and automation. Centauri is a tech-enabled services and data liquidity company serving health plans and providers throughout the United States. For the past 20+ years Anna has helped healthcare provider and technology organizations grow, innovate, and adopt change. Anna teaches leadership skills to physicians through the Tennessee Chapters of American College of Healthcare Executives and previously taught healthcare data analytics and analysis at Lipscomb University. Anna actively volunteers with ACHE, Women in Technology Tennessee, and Tennessee prison ministry and is an active member of CHIME and Nashville Technology Council.

Holly Armes

Holly Armes is the Environment Manager at Clayton Homes where she is over a group of software engineers who support Clayton development teams operationally. Clayton Homes offers affordable, quality homes as one of America's leading home builders. Holly has been in Information Technology for the last 20+ years in several different roles, Programmer, System Analyst, Team Lead, Change Manager and now Environment Manager. Holly enjoys working with her team and others to see how processes can be improved and automated for better results and time saving advantages. Holly actively volunteers with Habitat for Humanity, Muse Knoxville, Scott County Christian Center and is actively serving on WIT Knoxville's board as the technology guru.
